

Competition Commission–Complaint Form

This form is to assist members of the public to make complaints to the Competition Commission.

INFORMATION:

The Competition Commission can only take action to redress a competition problem following a full, detailed investigation. It cannot simply intervene directly with suppliers to assist a consumer or business facing a problem. However, if you face a problem relating to a business (including a parastatal) behaving anticompetitively, or if you are concerned that a business might be in breach of the Competition Act 2007, then **we would like to hear from you**.
